

Product Overview

The **Single Slip Connector** is a slip-type coiled tubing connector used to attach coiled tubing to the **C.T. tool/workstring**. It is available with an option of an **internal or external neck** and is designed for high tensile strength. The connector incorporates a field-replaceable slip and dual O-rings to maintain pressure integrity.

Key Features

- Used to attach **coiled tubing to the C.T. tool/workstring**.
- Available with **internal or external neck** options.

Technical Data

Coiled Tubing Size (in)	O.D. (in)	I.D. (in)
1	1.600	0.875
1-1/4	1.850	1.125
1-1/2	2.188	1.250
1-3/4	2.375	1.531
2	2.688	1.531
2-3/8	3.375	2.000
