

Product Overview

The **Go-Devil** is a wireline fishing tool used when the wireline needs to be **cut from a stuck tool string** during fishing operations. It is available in different lengths and with either **flat or angled bottoms**, providing flexibility for different well conditions and operational requirements.

Key Features

- **Wireline cutting application** — Used to cut the wireline from a stuck tool string during fishing operations.
- **Multiple length options** — Available in 2 ft, 3 ft, and 5 ft configurations.
- **Flat or angled bottom** options are available with different bottom profiles to suit the application.
- **Multiple tool sizes** — Documented sizes include 1-1/2, 1-7/8, 2-1/8, and 2-1/2 in.
- Wire-size flexibility is specified according to the application.
- **Additional sizes available** — Other sizes can be supplied on request.
