

Product Overview

The **Quick Lock Coupling** is a wireline tool-string component designed to provide a **fast and safe method of changing over tools without using wrenches**. Its spring-loaded slide mechanism allows the coupling to be quickly released or secured, making tool changeover more convenient and efficient during wireline operations.

Key Features

- **Fast tool changeover** — Enables operators to change tools quickly without the use of wrenches.
- **Safe operation** — Designed to provide a fast and safe means of changing over tools.
- **Spring-loaded locking mechanism** — A spring-loaded slide allows the coupling to be easily released or secured.
- **Multiple size options** — Available in sizes ranging from 1-1/4 into 2-1/2" in the documented configurations.
- **Multiple connection configurations** — Offered with 15/16-10 UN, 1-1/16-10 UN, and 1-9/16-10 UN connections.
- **Multiple Fishing Neck sizes** — Documented Fishing Neck O.D. options range from 1.187 into 2.312 in.
- **Additional sizes available** — Other sizes can be supplied on request.

Technical Data

Size (in)	Max. O.D. (in)	Fishing Neck O.D. (in)	Connection
1-1/4	1.250	1.187	15/16-10 UN
1-1/2	1.500	1.375	15/16-10 UN
1-7/8	1.875	1.750	1-1/16-10 UN
2-1/2	2.500	2.312	1-9/16-10 UN
