

Product Overview

The **Bull Dog Spear** is a heavy-duty internal fishing tool designed to engage and retrieve tubular items that have become stuck or lost inside the wellbore. Its robust construction provides reliable gripping performance during demanding fishing operations.

The tool consists of a top sub with an integral fishing neck, pin connection and tapered key, a mandrel, hardened dovetail slip key(s), and a bottom sub. The dovetail slip key design ensures secure engagement and excellent durability under high pulling loads. Optional engagement stop rings are available for applications requiring controlled engagement depth.

Key Features

- Heavy-duty internal fishing tool
- Designed for retrieval of tubular equipment
- Hardened dovetail slip keys for maximum gripping strength
- Robust mandrel and body construction
- Multiple slip key configurations depending on size
